

MISSION - VISION - VALUES

Mission:

To market electricity, natural gas, green energy and internet service in Alberta at competitive rates with the express purpose of advancing energy conservation, community resilience, Indigenous reconciliation and related education in the Foothills, centered in Diamond Valley.

Vision:

The Diamond Valley region is a hub of environmental and socio-economic sustainability, community resilience and education, and that Foothills Energy Co-op has a strong and visible presence therein.

Values:

- Encourage inclusion and collaboration in our processes and will treat all our community and neighbours with dignity and respect
- Advance the principles of the Truth and Reconciliation Commission by acknowledging the traditional and ancestral territories of all the First Nations in Southern Alberta and honoring the people who first occupied these lands
- Support education initiatives that lead to increased renewable energy production, community resilience and appreciation for the natural environment
- Actively support the community through our Community Fund and by donations to charities and organizations in Foothills County
- Encourage big ideas
